Ground Training: Wellesbourne Mountford Aerodrome (EGBW)

Notes:

1. The training can vary in length but given an average pilot and reasonable weather conditions expect to complete the course in 5 days
2. The hardest part of the course is the seamanship as there is a lot of information to take in. It certainly helps if you have a sailing background
3. On-Track Aviation offer training and testing for the Seamanship examination. In addition we offer groundschool tuition for seaplane operations. It is recommended you take this course prior to attending your chosen school
